Not even certain what
the date is here. I thought
that it was June 66 - as cover
shows until - for back in the
book Dec 1 is written on a
page. Just another case of a
hiker recording data for himself.
The date for the 1st month in this book
may very well be for November
(or 9)

Because of the date
situation - the ADPCs
made may be in error.

The
End

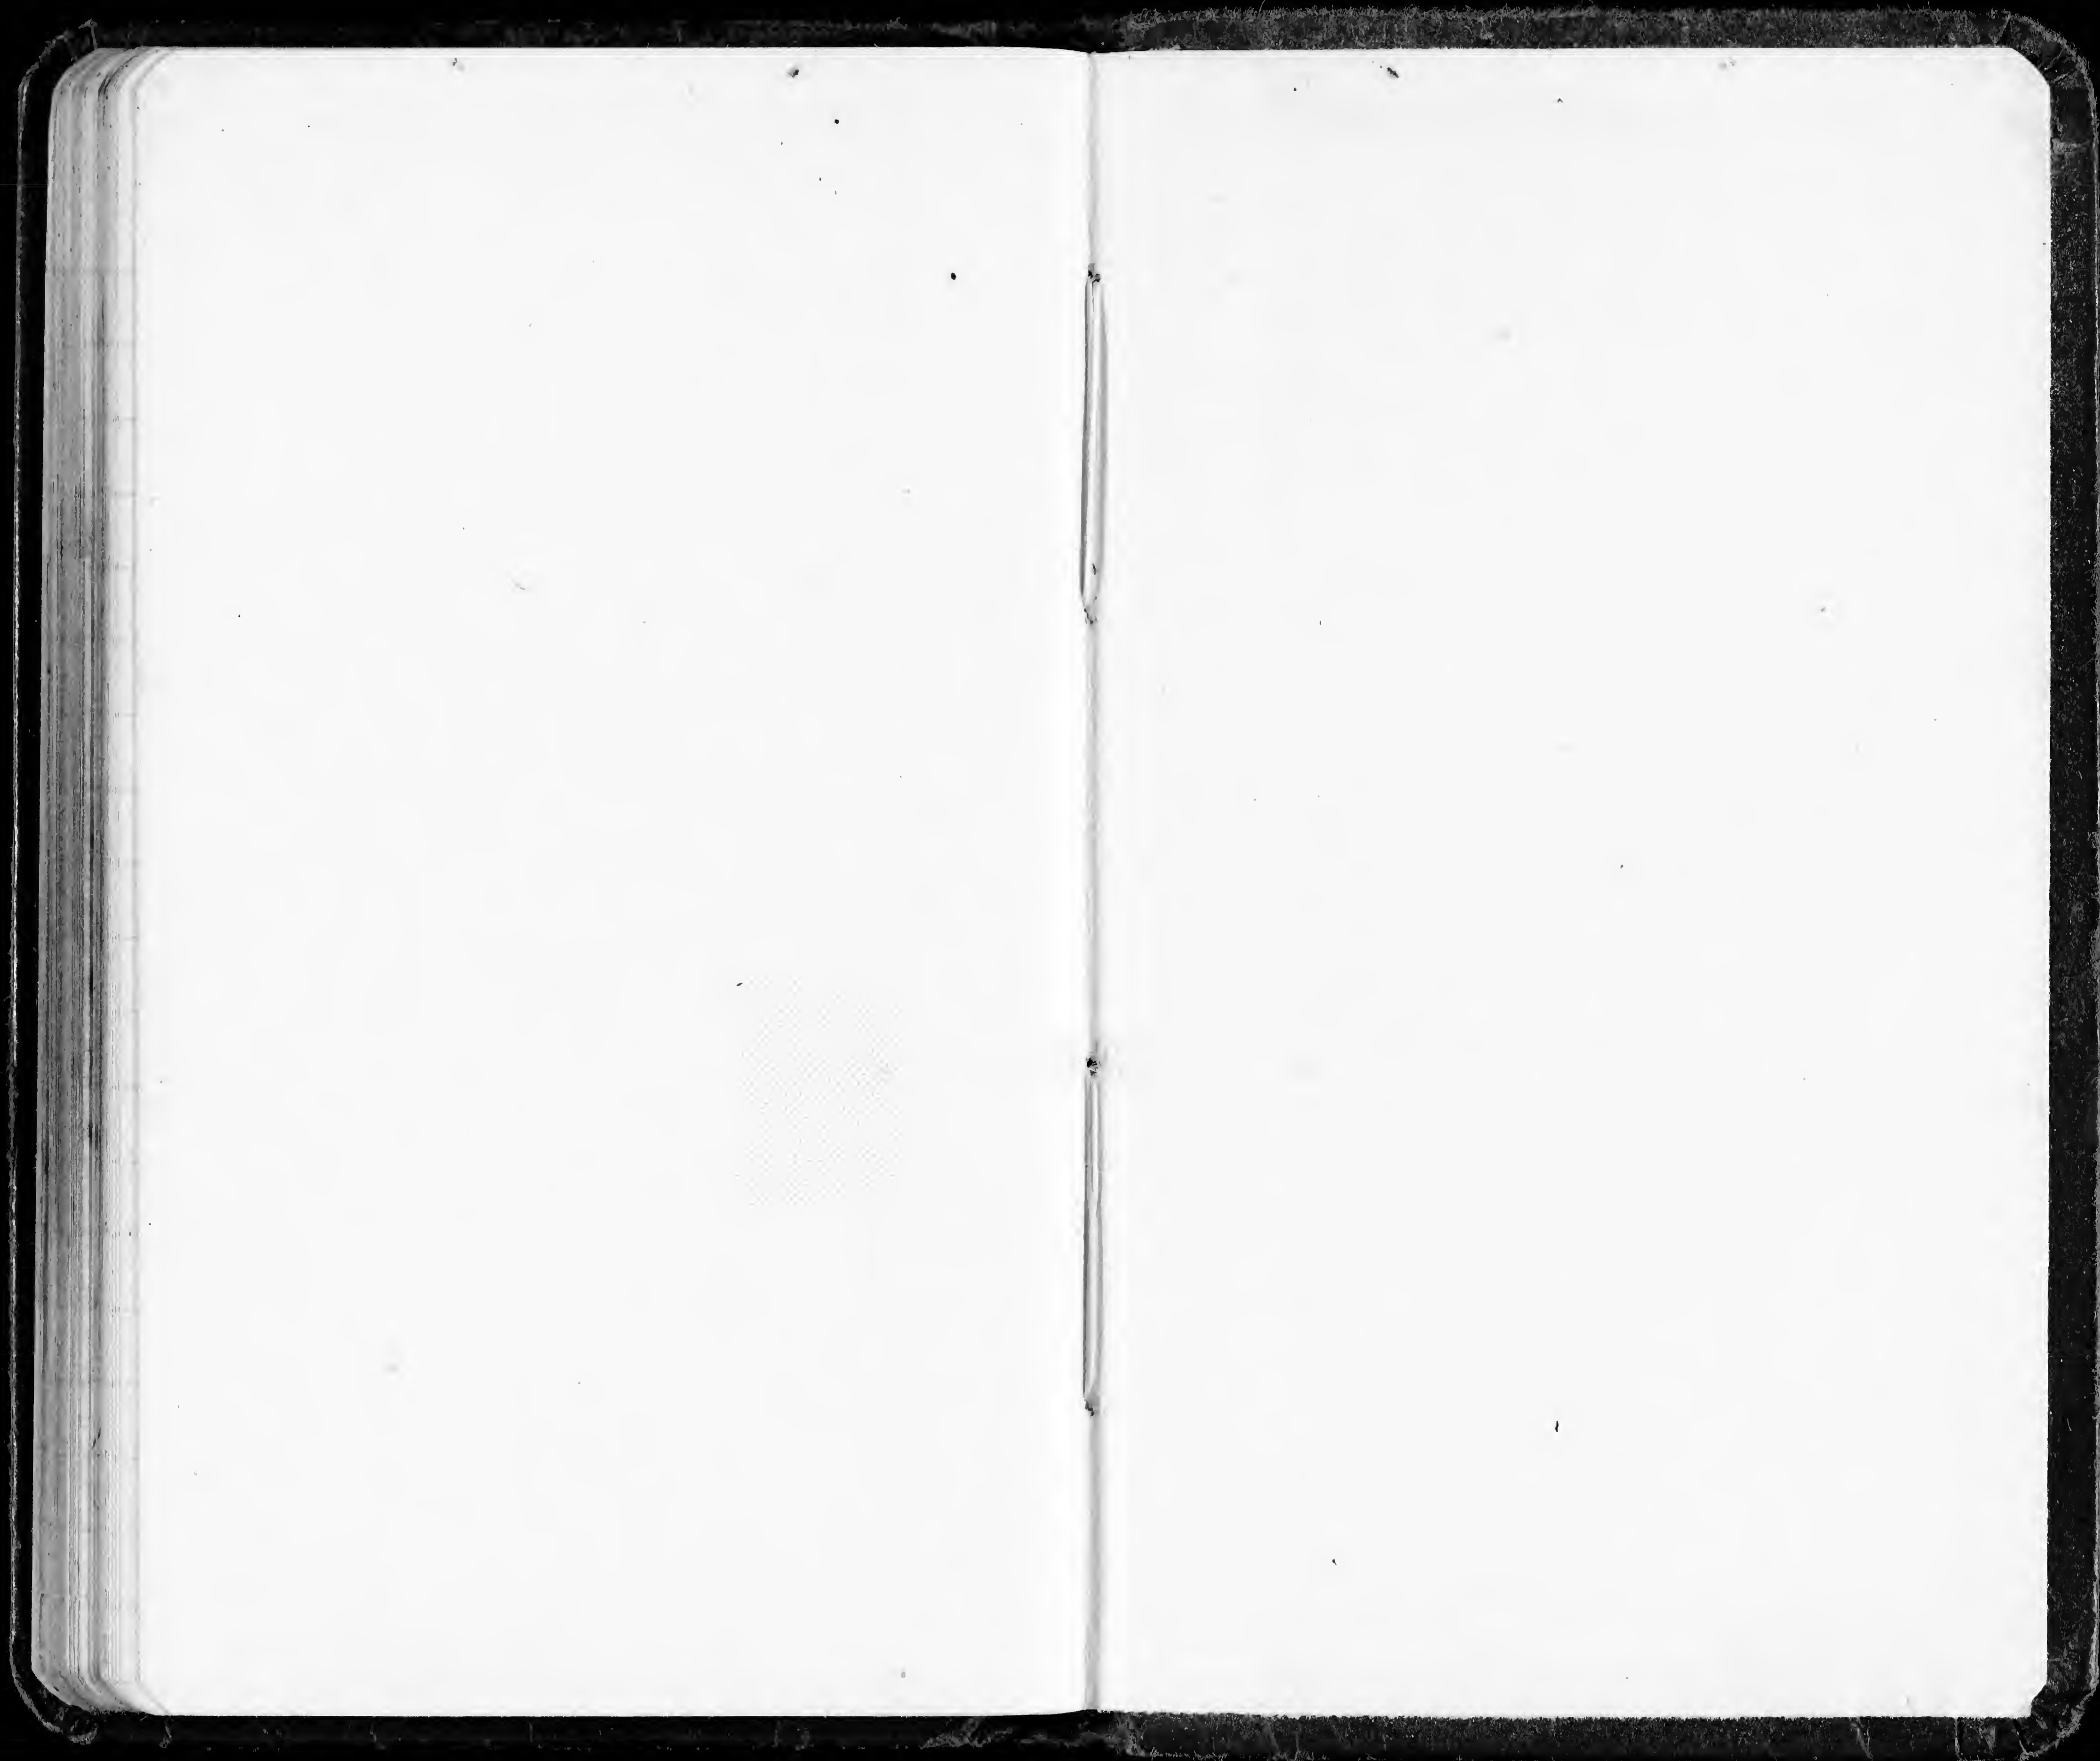

One month mentioned in
the whole book. If
Lewis ever coughs while
he's working his
sphincter muscle will
surely contract and
choke him to death!
